Visitor statistics cookies

We use cookies to compile visitor statistics such as how many people have visited our website, what type of technology they are using (e.g. Mac or Windows which helps to identify when our site isn't working as it should for particular technologies), how long they spend on the site, what page they look at etc. This helps us to continuously improve our website. These so called “analytics” programs also tell us if how people reached this site (e.g. from a search engine) and whether

they have been here before helping us to put more money into developing our services for you instead of marketing spend.

We use Google Analytics.

Turning cookies off

You can usually switch cookies off by adjusting your browser settings to stop it from accepting cookies. Doing so however will likely limit the functionality of ours and a large proportion of the world's websites as cookies are a standard part of most modern websites.

It may be that your concerns around cookies relate to so called "spyware". Rather than switching off cookies in your browser you may find that anti-spyware software achieves the same objective by automatically deleting cookies considered to be invasive.
